Conference Announcement and
Call for Contributions

**4th International IPS Cable Simulation User Conference
on June 18th and 19th, 2019 in Speyer, Germany**

- Yes, I will attend the conference. The conference fee is 600 € plus VAT.
- No, I cannot attend, but I am interested in receiving further information.

Title, First name, Family name

Company/Institution, Department

Postal address

Zip code, City, Country

Phone

E-mail

Date, Signature

Please send this registration by May 31st, 2019 via E-mail to
ips.conference@flexstructures.de

Conference language

- Contributions and presentation slides in English

Conference fee

- Regular conference fee (June 18th and 19th, 2019): 600 € plus VAT
- Speakers: free

Exhibition

We offer the possibility to present yourself with an exhibition booth. If you are interested, please contact us:
ips.conference@flexstructures.de

Location and accomodation

Technik Museum Speyer
Am Technik Museum 1, 67346 Speyer
<https://speyer.technik-museum.de/en>
We have reserved a contingent of rooms in the “Hotel am Technik Museum Speyer”. Please make your booking early (key word: fleXstructures).
Phone: +49 (0)6232/67100, E-mail: info@hotel-speyer.de

Contact with regard to organization/contributions

Esther Neumann, fleXstructures GmbH
Phone: +49 (0)631/680 39-360
E-mail: ips.conference@flexstructures.de

Contact with regard to content

Dr. Klaus Dreßler, Fraunhofer ITWM
Phone: +49 (0)631/316 00-44 66
E-mail: klaus.dressler@itwm.fraunhofer.de

4th International IPS Cable Simulation User Conference 2019

June 18th and 19th, 2019 • Speyer, Germany

In cooperation with

4th International IPS Cable Simulation User Conference 2019

Preliminary Program

Call for Contributions

flexstructures GmbH, IPS AB, Fraunhofer-Chalmers Centre FCC and Fraunhofer ITWM are pleased to invite you to attend the 4th International IPS Cable Simulation User Conference.

Many users of IPS Cable Simulation from all over the world already seized the opportunity to participate in our conferences, to learn more about the making of the software and new features and to share their own experiences with users from different domains and different countries.

With the 4th IPS Cable Simulation User Conference 2019, we will continue this tradition and strengthen the international network of experts applying the cable simulation technology.

IPS Cable Simulation is a powerful innovative tool for design, virtual assembly and DMU of flexible parts. Its main capability is the real time simulation of the deformation of wires, hoses and cable bundles of various material types and a variety of cross-section profiles. Due to unique and outstanding features such as cable length optimization and automatic routing including clips, IPS Cable Simulation has become the leading tool in its specific domain.

Tuesday, June 18th, 2019

- Welcome and opening
- Industrial use cases and application projects
- Features and technology challenges
- Special event
- Conference dinner

Wednesday, June 19th, 2019

- Application challenges
- What's new in IPS and future roadmap
- Industrial use cases and application projects
- Discussions, networking, brainstorming
- Hands-on training

Highlights of previous User Conferences

Industrial applications and process integration presented by Airbus, AUDI, BMW, CEVT, Delphi, FORD, HONDA, Hyundai, GM/OPEL, SCANIA, STIHL, TOYOTA, Volkswagen and Volvo.

Impressions

www.flexstructures.de/ips-cable-simulation-user-conference

We invite users of IPS Cable Simulation to share their experiences with the software.

Please contribute to this conference by submitting presentation proposals for topics related to IPS Cable Simulation. The presentations should deal with case studies, success stories, application projects and application challenges. We also appreciate contributions about possible future fields of application, trends and developments in the field of cable simulation.

Abstracts

Please submit an abstract of your contribution (in English language; 400 words maximum) containing the key topic and title of the contribution as well as name, address and company of the submitting author(s). Please send your abstract via E-mail to: ips.conference@flexstructures.de

Schedule

- By December 15th, 2018:
Submission of abstracts
- By January 15th, 2019:
Notification of authors
- By April 15th, 2019:
Submission of full versions of contributions
